- 1.1 **Possible contamination:** Many visitors from all over South-Africa possibly infected with Corona Virus from high risk areas would possibly flock to Mossel Bay-your prospective clients.
- 1.2 **Provisional exhibiting period:** Please note that all dates and times in this application are subject to change or cancellation with no repercussions for the IEA, Mossel Bay Municipality or ATKV whatsoever in case it happens. Neither you nor us have all the answers in this regard at this stage. The immediate future is as you know most uncertain for all South-Africans including for the rest of the world. Covid-19 is a reality and on the increase.
- 1.3 **Possible refund of money paid:** You should be aware of it that should the worst happen with the subsequent holiday season being cancelled that all money paid would not be refunded again similar to the March2021/April2022 holiday season cancelled just before commencement without deducting for Administration Fees, Bankcosts etc. and you absolutely agree to this. In case of such practice being repeated by the IEA it could very well be the end of the IEA and the end for all future exhibiting space under the umbrella of the IEA. Maybe similar to you the IEA is also currently locked in a survival phase with the sole aim to survive for so many exhibitors who depend on us.

1.4 **Indemnity to the IEA, Mossel Bay Municipality and ATKV.**
 By signing and lodging of this application for exhibiting space during the expected December2021/January2022 holiday period (All exhibiting areas) and the subsequent successful selection for the allocation of exhibiting space(All areas) I the applicant hereby indemnify the IEA, Mossel Bay Municipality and ATKV against any possible damages whatsoever which may be suffered in case of dates that might change or ultimately cancellation of the entire holiday season due to Coronavirus or something similar. This would include cost incurred such as booked accommodation, stock bought etc.etc. The IEA retain the absolute prerogative to make the final decision in this regard.

2. **In case of the expected holiday season (All subsequent exhibiting areas) becoming a reality notice should also be taken of the following:**

- 2.1 **You and your personnel** if applicable (you take full responsibility for any subsequent personnel in your employ at any such time) would have to keep at all times to the rules and regulations in place as prescribed by the Government as well as the IEA for Covid-19 pertaining to the level we are at, at such time with the accent on the following:
 - 2.1.1 **The wearing of masks:** Everybody without exception will at all times wear a suitable face mask and ensure at the same time that nobody without a mask on enters your exhibiting space.
 - 2.1.2 **Personal sanitising:** It will be expected from each and every Stallholder and/or personnel to wash and sanitise hands as frequently as possible.
 - 2.1.3 **Additional cost to keep Sanitiser at each stall:** Each and every Stallholder will be responsible for keeping Sanitiser at his or her stall for the general use of anybody who should wish to enter such stallspace. It will not be provided by the IEA; seeing that such a cost for Sanitiser has not been included in the amount payable for each stall. Such cost will be for each and every exhibitors own account.
 - 2.1.4 **Social distancing:** The practice of social distancing and the implementation there-of by every stallholder concerning prospective clients will have to be enforced on an ongoing basis by every Stallholder and/or his/her personell. Also: Concerning the product marketed by you and the keeping of distance between you and your client. Anybody marketing a product which require him/her to share personal space with the client or touch the client in order to sell such product should in their own as well as in everybody else s interest and protection reflect if such product justify the sale there-of under Covid-19 circumstances. Is your product safe for you as well as for your client?.
 - 2.1.5 **Stock:** We are all aware of the fact that it is in many instances difficult if not impossible to obtain stock which would under normal circumstances be readily available. Would you be able to aquire stock and enough stock to do a holiday period like December/January?

Please note: Each and every exhibitor and /or his/her personnel would have to keep to all rules and regulations in place-It will not be negotiable. Please help us to help you.

The I.E.A, Mossel Bay Municipality and A.T.K.V joined hands in a joint venture with the result that all previous A.T.K.V exhibitors will in future fall under the administration of the I.E.A and will have to apply henceforth for exhibiting space at the I.E.A. All exhibitors at Hartenbos will be under the direct and full control of the I.E.A. Exhibiting space available and allocated will fall under the administration of the I.E.A. and will be made available in future to exhibitors on public as well as private(A.T.K.V) ground.

All I.E.A. documentation with the necessary changes effected if necessary and where applicable will henceforth form the basis of all negotiation or contracting between informal traders and the I.E.A applicable to Hartenbos, irrespective of where (I.E.A or A.T.K.V) has been exhibited before. Any reference in this application (**Part A and B**) to the I.E.A or Mossel Bay Municipality will henceforth also include A.T.K.V and everything that goes with it for purposes of interpretation where exhibiting space at Hartenbos available or allocated may be applicable.

No generators may be used on I.E.A. stall space at Municipal Stalls or Joubert Park.(A.T.K.V). Compressors, electrical tools or battery driven tools are also prohibited except under emergency conditions which constitute very short time use.

Paragraph 3.8: Indemnity

The applicable indemnity against any eventuality is extended to include A.T.K.V and A.T.K.V ground (Joubert Park) with everything that goes with it.

Part B:

Structures may, in contrast with exhibiting space on public ground with all arrangements in place, be erected on A.T.K.V ground (Joubert Park Only) and may be left daily in place for the entire holiday period.

1. Whenever the word "displayer" is used it also includes any personnel employed by the stallholder.
- 1.1 Failure to effect full payment on or before the 1 November 2021 and without any contrary agreement with the I.E.A in place, the application will be cancelled without further notice. The stall space will then be allocated to another applicant. When a displayer cannot or does not want to make use of his stand, the stand will revert back to the I.E.A and given to someone else. Sub-letting will not be tolerated under any circumstances.
- 1.2 Only products approved as per the original application or by special permission from the I.E.A Committee may be offered for sale, may be sold from your stall or may be delivered from your stall. No other items/products not approved may be sold from your stall to other stallholders or to the public or delivered to anybody. No orders for products not approved may be taken from your stall by anybody. The I.E.A reserves the right to remove any product, which in its discretion, permission for sale purposes has not been obtained.
- 1.3 The I.E.A does not in any way guarantee the quality of any stall space allocated. The onus is entirely on the displayer to make sure before the start of the season exactly where his stand is situated. The I.E.A does not in any way accept responsibility if the approved products do not sell on the stall space allocated.
- 1.4 The displayer and his personnel (the displayer is at all times responsible for the actions and behaviour of his employees) undertake not to park any vehicle/s in front of his/her stall or in front of anybody else's stall.

If anybody for some or other reason has to stop trading then his stall space must be totally vacated and clean within 1 hour from ceasing trade to departure. Everything must be removed from the applicable stall space in such circumstances. Nobody is allowed to wait on his stall space with a heap of goods already packed for a long time without trading while the market is still in full swing. No unused vehicles from which no trading is applicable (Food wagons, soft serve etc.) may at any time be stored on exhibiting space. Such vehicles must be removed from exhibiting space as soon as possible and within a maximum time of 1 hour from the commencement of trading cease. Till 18h00 on any specific applicable evening applicable to all municipal stalls opposite Joubert Park in front of the Alikreukel flats. All stalls must be totally vacated by 18:30.

Nobody may wait on his/her exhibiting space with his stall packed up to be fetched by somebody after one hour of starting to pack up.
- 1.15 Any irregularities or transgression of the rules must be reported in writing to the I.E.A Official on duty within 24 hours. Only complaints in writing will be investigated.

The I.E.A Constitution forms and integral part of the rules that are in place. The I.E.A reserves the right to change any rules, regulations or arrangements that are in place after members have been duly notified in writing of such an intention. Such changes made will afterwards be considered binding on all members and displayers.
- 1.23 **INDEMNITY:** Exhibiting would at all times be at the risk of the successful displayer.
